Biocidal Products Regulation - BPR

Effective Date: July 26, 2022

ACT is BPR Compliant, as our products are not within the 22 BPR Product Types and do not contain Active Substances that fall into the 4 primary groups of disinfectants, preservatives, pest control, and other biocidal products.

Small traces of chlorine can be detected due to the public water supply used to moisturize the Nylon 6.6 to prevent embrittlement. There is no intent for the chlorine remnant to provide disinfecting properties.

This assessment is based on data and certificates obtained from Advanced Cable Ties raw material suppliers and vendor material safety data sheets. We have not performed independent testing to verify such information and disclaim any liability if such information is not accurate. It is the responsibility of our customers to determine that their use of our product(s) is safe, lawful, and technically suitable in their intended applications. Because of changes in the law and in regulations, we cannot guarantee that the status of this product and packaging will remain unchanged.
