HALOGEN CERTIFICATION

Effective Date: May 25, 2022

This certification verifies that halogenated substances (Iodide, Chloride, and Fluoride & Bromide) are within acceptable compliance tolerances for natural, color, and UV black cable ties and wiring accessories offered by Advanced Cable Ties, unless listed below.

The following products contain halogenated substances above compliance tolerances.

-Halogenated antimony trioxide flame retardants, less than 3%, are used in the manufacturing of Wire Connectors.

-Halogenated heat stabilizers, up to 0.6% bound Iodine, are used in the manufacturing of Heat Stabilized and Impact Modified cable ties.

-Cable tie removal tool grips contain chlorine above 1%.

-ACTPAC and Wire Connector clamshells are manufactured with Polyvinylchloride (PVC) material.

-Vinyl Male and Female Disconnects, Vinyl Piggyback Disconnects, Vinyl Ring Terminals, Vinyl Spade Terminals, and Vinyl Male Snap Plugs contain halogens above 1%.

This assessment is based on data and certificates obtained from Advanced Cable Ties raw material suppliers and vendors material safety data sheets. We have not performed independent testing to verify such information and disclaim any liability if such information is not accurate. It is the responsibility of our customers to determine that their use of our product(s) is safe, lawful, and technically suitable in their intended applications. Because of changes in the law and in regulations, we cannot guarantee that the status of this product will remain unchanged.
