SAFETY DATA SHEET

Vydyne 21SPM

Section 1. Identif	fication
GHS product identifier	: Vydyne 21SPM
Chemical name	: Polymers
Other means of identification	: Polyamide solid.
Product type	: Solid.
Relevant identified uses of	f the substance or mixture and uses advised against
Identified uses	
Plastics.	
Supplier's details	: Ascend Performance Materials Inc. 600 Travis Street, Suite 300 Houston, TX 77002 USA 1-713-315-5700
Emergency telephone number (with hours of operation)	: CHEMTREC Emergency Phone: Toll Free: 800-424-9300 Toll: 703-527-3887
Section 2. Hazard	ds identification
OSHA/HCS status	: While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this MSDS contains valuable information critical to the safe handling and proper use of the product. This MSDS should be retained and available for employees and other users of this product.
Classification of the substance or mixture	: Not classified.
GHS label elements	
Signal word	: No signal word.
Hazard statements	: No known significant effects or critical hazards.
Precautionary statements	
General	: Read label before use. Keep out of reach of children. If medical advice is needed, have product container or label at hand.
Prevention	: Not applicable.
Response	: Not applicable.
Ctorero	: Not applicable.
Storage	
Disposal	: Not applicable.

Section 3. Composition/information on ingredients

Substance/mixture	: Mixture
Chemical name	: Polymers
Other means of identification	: Polyamide solid.

CAS number/other identifiers

Date of issue/Date of revision	: 1/23/2015.	Date of previous issue	: No previous validation.	Version : 1	1/10

Section 3. Composition/information on ingredients

CAS number
Product code

Not applicable.Polymer

-		
Ingredient name	%	CAS number
Poly[imino(1,6-dioxo-1,6-hexanediyl)imino-1,6-hexanediyl]	99-100	32131-17-2

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

Description of necessary first aid measures

Eye contact	 Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
Inhalation	: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.
Skin contact	 Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
Ingestion	: Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

Most important symptoms/effects, acute and delayed

Potential acute health	effects
Eye contact	: Heated material can cause thermal burns.
Inhalation	: Exposure to decomposition products may cause a health hazard. Serious effects may be delayed following exposure.
Skin contact	: Heated material can cause thermal burns.
Ingestion	: No known significant effects or critical hazards.
Over-exposure signs/	<u>symptoms</u>
Eye contact	: No specific data.
Inhalation	: No specific data.
Skin contact	: No specific data.
Ingestion	: No specific data.
Indication of immediate	e medical attention and special treatment needed, if necessary
Notes to physician	 In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.
Specific treatments	: No specific treatment.

See toxicological information (Section 11)

Protection of first-aiders

: No action shall be taken involving any personal risk or without suitable training.

Section 5. Fire-fighting measures

Extinguishing media	
Suitable extinguishing media	: Use an extinguishing agent suitable for the surrounding fire.
Unsuitable extinguishing media	: None known.
Specific hazards arising from the chemical	: No specific fire or explosion hazard.
Hazardous thermal decomposition products	 Decomposition products may include the following materials: carbon dioxide carbon monoxide nitrogen oxides hydrogen cyanide Ammonia. Aldehyde.
Special protective actions for fire-fighters	 Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
Special protective equipment for fire-fighters	: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.
Remark	: No additional remark.
Remark	: No additional remark.

Section 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

For non-emergency personnel	:	No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment.
For emergency responders	:	If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".
Environmental precautions	:	Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
Methods and materials for co	nt	ainment and cleaning up
Small spill	:	Move containers from spill area. Vacuum or sweep up material and place in a designated, labeled waste container. Dispose of via a licensed waste disposal contractor.
Large spill	:	Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Vacuum or sweep up material and place in a designated, labeled waste container. Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

Section 7. Handling and storage

Precautions for safe handling		
Protective measures	Put on appropriate personal protective equipment (see Section 8).	
Advice on general occupational hygiene	Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before ea drinking and smoking. Remove contaminated clothing and protective equipment entering eating areas. See also Section 8 for additional information on hygiene measures.	ting,
Conditions for safe storage, including any incompatibilities	Store in accordance with local regulations. Store in original container protected fr direct sunlight in a dry, cool and well-ventilated area, away from incompatible mat (see Section 10) and food and drink. Keep container tightly closed and sealed un ready for use. Containers that have been opened must be carefully resealed and upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.	terials htil I kept

Section 8. Exposure controls/personal protection

Control parameters		
Occupational exposure lim		
None.		
Appropriate engineering controls	: Good general ventilation should be sufficient to control worker exposure to airborne contaminants.	
Environmental exposure controls	Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.	
Individual protection measu	<u>S</u>	
Hygiene measures	: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.	1
Eye/face protection	: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.	
Skin protection		
Hand protection	: Chemical-resistant, impervious gloves complying with an approved standard should b worn at all times when handling chemical products if a risk assessment indicates this necessary.	
Body protection	Personal protective equipment for the body should be selected based on the task beir performed and the risks involved and should be approved by a specialist before handling this product.	ıg
Other skin protection	: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by specialist before handling this product.	
Respiratory protection	: Use a properly fitted, particulate filter respirator complying with an approved standard a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.	1

Section 9. Physical and chemical properties

Appearance	
Physical state	: Solid. [Pellets.]
Color	: White to yellowish.
Odor	: Odorless.
Odor threshold	: Not applicable.
рН	: Not applicable.
Melting point	: 257 to 267°C (494.6 to 512.6°F)
Boiling point	: Not available.
Flash point	: Not available.
Burning time	: Not available.
Burning rate	: Not available.
Evaporation rate	: Not applicable.
Flammability (solid, gas)	: Not available.
Lower and upper explosive (flammable) limits	: Not available.
Vapor pressure	: Not available.
Vapor density	: Not available.
Relative density	: 1.1 to 1.2 g/cm ³
Solubility	: Not available.
Solubility in water	: Not available.
Partition coefficient: n- octanol/water	: Not available.
Auto-ignition temperature	: Not available.
Decomposition temperature	: >300°C (>572°F)
SADT	: Not available.
Viscosity	: Not available.

Section 10. Stability and reactivity

Reactivity	: No specific test data related to reactivity available for this product or its ingredients.
Chemical stability	: The product is stable.
Possibility of hazardous reactions	: Under normal conditions of storage and use, hazardous reactions will not occur.
Conditions to avoid	: No specific data.
Incompatible materials	: No specific data.
Hazardous decomposition products	: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Section 11. Toxicological information

Information on toxicological effects

Acute toxicity

Not available.

Irritation/Corrosion

Not available.

Sensitization

Not available.

Mutagenicity

Not available.

Carcinogenicity

Not available.

Reproductive toxicity

Not available.

Teratogenicity

Not available.

Specific target organ toxicity (single exposure)

Not available.

Specific target organ toxicity (repeated exposure)

Not available.

Aspiration hazard

Not available.

Information on the likely routes of exposure	:	Routes of entry anticipated: Oral, Dermal, Inhalation.
Potential acute health effects		
Eye contact	1	Heated material can cause thermal burns.
Inhalation	:	Exposure to decomposition products may cause a health hazard. Serious effects may be delayed following exposure.
Skin contact	1	Heated material can cause thermal burns.
Ingestion	1	No known significant effects or critical hazards.

Symptoms related to the physical, chemical and toxicological characteristics

Eye contact	: No specific data.
Inhalation	: No specific data.
Skin contact	: No specific data.
Ingestion	: No specific data.

Delayed and immediate effects and also chronic effects from short and long term exp	<u>osure</u>

<u>Short term exposure</u>						
Potential immediate effects	: Heated mate	erial can cause thermal t	ourns.			
Potential delayed effects	: None knowr	۱.				
<u>Long term exposure</u>						
Potential immediate effects	: None knowr	1.				
Date of issue/Date of revision	: 1/23/2015.	Date of previous issue	: No previous validation.	Version	:1	6/10

Section 11. Toxicological information

Potential delayed effects	: None known.
Potential chronic health ef	<u>fects</u>
Not available.	
Conclusion/Summary	: No known significant effects or critical hazards.
General	: No known significant effects or critical hazards.
Carcinogenicity	: No known significant effects or critical hazards.
Mutagenicity	: No known significant effects or critical hazards.
Teratogenicity	: No known significant effects or critical hazards.
Developmental effects	: No known significant effects or critical hazards.
Fertility effects	: No known significant effects or critical hazards.
Numerical measures of toxi	city
Acute toxicity estimates	
Not available.	
Interactive effects	: None known.
Other information	: Adverse symptoms include the following: None known. Adverse symptoms may include the following: None known. Adverse symptoms sometimes include the following: None known.
Section 12. Ecolo	gical information
Toxicity	

Not available.

Conclusion/Summary : Not toxic.

Persistence and degradability

Not available.

Bioaccumulative potential

Not available.

Mobility in soil

Soil/water partition : Not available. coefficient (Koc)

Other adverse effects : No known significant effects or critical hazards.

Section 13. Disposal considerations

Disposal methods	of this produ requirement regional loca via a license the sewer u Waste pack when recycl safe way. E	uct, solutions and any by- is of environmental prote al authority requirements ed waste disposal contrac- nless fully compliant with aging should be recycled ing is not feasible. This impty containers or liners	voided or minimized whe products should at all tim ction and waste disposal . Dispose of surplus and ctor. Waste should not b the requirements of all a d. Incineration or landfill s material and its container a may retain some produc off and contact with soil, v	nes comply with legislation and non-recyclable e disposed of un unthorities with ju should only be c must be dispose ct residues. Avo	the any products ntreated to urisdiction. considered sed of in a bid
Date of issue/Date of revision	: 1/23/2015.	Date of previous issue	: No previous validation.	Version :1	7/10
